

INSTITUTIONAL DISTINCTIVENESS

FULFILLMENT OF GOAL “MOULDING TRUE CITIZEN” IN EVERY SENSE

The objective of our institution is ‘**Moulding True Citizens**’ with high professional standards. It also strives to create meritorious professionals to serve the humanity by setting a commendable tradition of initiatives. The institution is imparting engineering education with a sense of self-discipline and accountability and overall personality development among budding professionals with respect to democratic, ethical, emotional, intellectual and moral values.

A ‘Semester orientation program’ to explain the relevance of the subjects and various activities scheduled in respective semester, which helps the students for better semester planning. In this bridge program students are encouraged to participate in various skill development programs which help to improve their confidence level. Every year the institution conducts sessions of eminent personalities to enrich the knowledge level and morality of students.

The academic hours start with a prayer. The QC-PC(Quality Circle Placement Circle) activities are being conducted, 5 minutes prior to the commencement of the classes to improve students’ personalities and to get rid of the stage fear. The principal provides the quote for the day, words for the day and activities for the day to the students on the previous day to have a discussion on these topics and make a presentation in the QC-PC hours in the next day. All the students invariably get a chance to participate in this. This boosts up their confidence to participate in the interviews. These activities help the students to improve their vocabulary and learn moral values.

A diverse array of opportunities is provided to the students to enhance their knowledge beyond academics. Organizing various National and International level Conferences, Hands on training and workshops, Technical summits by which the students are exposed to the recent developments. In order to bring out the hidden talents, students are encouraged to organize Cultural extravaganza named ‘Malhar’, Sports, Techfest etc. These events allow the students to excel

in Co-Scholastic areas as well. Improvements are visible in terms of student participation in inter-collegiate competitions that include paper and poster presentations, project competitions etc. In the view of establishing a research ambience, students are encouraged to innovate and develop projects.

The 'Placement and Training cell' is an integral part of our institution that ensures the students are well trained and prepared to face their campus interviews effectively. The training programs of leading companies like Infosys, Tech Mahendra etc are scheduled right from the first semester with a focus on Communication and Aptitude skills, Soft skills and Technical skills enhancement. These meticulous efforts of trainings guided our institution to achieve many offers through reputed companies in our institution.

Professional bodies such as IEEE, ISTE, IEDC, ICT, ICI, CSI, Aeronautical Society of India are available in JCET. These student chapters are involved in updating the technical knowledge of the students by organizing Seminars, Special lecturers by eminent personalities from industries, group discussion and workshops regularly.

The institute provides the best possible infrastructure facilities for intellectual development of students. A few of remarkable amenities such as Central Library with 5580 sq.ft of comprising 29,337 volumes of books, 7 volumes of Encyclopedia and 118 National Journals and 22 International Journals. Sports are given equal weightage as academics. A ground with an area of 5000 m² makes the students strong physically and mentally which indirectly helps to improve their learning skills. Student team won prizes in several intercollege meets.

NSS unit observes and organizes various programmes on all International and National Importance days like Yoga day, World Human Rights Day, National Voters day, Environment day, AIDS, Women's day, so on. The institute strives to invoke the service mind of students by encouraging visits to orphanages and old age homes. The students enthusiastically participate and mingle with inmates and offer special lunch, sponsored by students and management. These visits passionately groom our students to gain an exposure towards downtrodden lifestyle so as to make them responsible citizens.

NCC in the institute aims at creating a pool of organized, trained and motivated youth with leadership qualities in all walks of life, who will serve the Nation regardless of which career they choose. Needless to say, the NCC also provides an environment conducive to motivating young Indians to join the armed forces.

The pleasant atmosphere of the institution is highly conducive for the academic excellence and overall personality development of the students, which is evident from the University Results and rank holders. We are regularly conducting various coaching classes for KEAM, LET etc. we have an alumni **Mr Arjun K C who is the 257th Civil Service rank holder** which is a great inspiration to students. These kind of stand-alone activities mould students in every aspect
