

“If Life is Temporary, Then How Can the Problems Be Permanent”

Editorial...

Life is Temporary. There are no permanent problems which could affect the life. Every problem has a solution. We need to be patient and try to understand the problem so that the solution emerges automatically. People live through their work; though the physical body is mortal, their work remains immortal. Let us all make it a point to work comprehensibly to attain the goals of the Institute. We may not have another day to prove that we are worth others. Let us present a present to people whom we meet today.
